

In The Drawings

Please approve and enter the following amendment to FIG. 2, as indicated in red ink on the attached copy of this figure (annexed hereto as Exhibit A):

FIG. 2: Please change the reference numeral associated with the "USER PREFERENCE PROFILE" button from "224" to --244--.

In The Claims

Please replace claims 1, 2, 20, and 21 as follows:

Ex SUB D1

1. (Twice Amended) An Internet television program guide e-mail reminder system for providing e-mail reminder messages of scheduled television events to a user at a multimedia system over the Internet comprising:

a web server for providing web pages of television program listings over the Internet, wherein the web server provides the user with an opportunity to select a television program from the television program listings web pages provided over the Internet, allows the user to order at least one e-mail reminder message for that television program, and sends the e-mail reminder message to the multimedia system over the Internet to remind the user when that television program is to be broadcast.

2. (Twice Amended) The system defined in claim 1 wherein the web pages provide an e-mail reminder option which the user selects to order e-mail reminder messages.

SubD2

C2

20. (Twice Amended) A method for providing e-mail reminder messages of scheduled television events to a user at a multimedia system over the Internet using an Internet television program guide system, the method comprising:

providing television program listings over the Internet;

selecting a television program from the television program listings provided over the Internet; and

providing e-mail reminder messages to the multimedia system over the Internet that remind the user when the television program is to be broadcast.

21. (Twice Amended) The method defined in claim 20 further comprising providing an e-mail reminder option which the user selects to order e-mail reminder messages.

Please add new claims 61-76:

C3

61. (New) The system defined in claim 3 wherein the e-mail reminder web page receives designations for a plurality of destinations to which the e-mail reminder message is to be sent.

62. (New) The system defined in claim 61 wherein each destination is designated by an associated e-mail address.

63. (New) The system defined in claim 61 wherein the e-mail reminder web page provides a selectable option that allows designation of a time at which the e-mail reminder message is to be sent.

64. (New) The system defined in claim 61 wherein the e-mail reminder web page provides a selectable option that allows designation of how often the e-mail reminder message is to be sent.

C3
~~65. (New) The system defined in claim 12 wherein the new reminders web page receives designations for a plurality of destinations to which the e-mail reminder message is to be sent.~~

66. (New) The system defined in claim 65 wherein each destination is designated by an associated e-mail address.

2nd E5
~~67. (New) The system defined in claim 65 wherein the new reminders web page provides a selectable option that allows designation of a time at which the e-mail reminder message is to be sent.~~

~~68. (New) The system defined in claim 65 wherein the new reminders web page provides a selectable option that~~

allows designation of how often the e-mail reminder message is to be sent.

69. (New) The method defined in claim 22 further comprising accepting through the e-mail reminder web page designations of a plurality of destinations to which the e-mail reminder message is to be sent.

70. (New) The method defined in claim 69 further comprising accepting an associated e-mail address specifying a given destination.

C³
71. (New) The method defined in claim 69 further comprising providing a selectable option on the e-mail reminder web page that allows designation of a time at which the e-mail reminder message is to be sent.

72. (New) The method defined in claim 69 further comprising providing a selectable option on the e-mail reminder web page that allows designation of how often the e-mail reminder message is to be sent.

sub E67
73. (New) The method defined in claim 31 further comprising accepting through the new reminders web page designations of a plurality of destinations to which the e-mail reminder message is to be sent.

74. (New) The method defined in claim 73 further comprising accepting an associated e-mail address specifying a given destination.

sub-E7
C3
75. (New) The method defined in claim 73 further comprising providing a selectable option on the new reminders web page that allows designation of a time at which the e-mail reminder message is to be sent.

76. (New) The method defined in claim 73 further comprising providing a selectable option on the new reminders web page that allows designation of how often the e-mail reminder message is to be sent.
